## Web Developer

### CONTACT

4168041720

Toronto, Ontario, Canada

alex.volsky1@gmail.com

<https://github.com/sunny0402>

### SKILLS

Data analysis: Python (Pandas, PyTorch)

Web development: JavaScript (Node/Express, React/Redux), MySQL (Sequelize), PHP, Laravel, AWS EC2.

### PORTFOLIO

[HTTPS://SUNNYWEBAPP.COM/](https://sunnywebapp.com/)

### SUMMARY

Dear Hiring Manager,

As an experienced front-end web developer, I bring a comprehensive set of skills that I believe will be valuable to your organization. My core skills are JavaScript, React, and Redux. I also have experience building full-stack web applications with PHP/Laravel. And have practical knowledge of MySQL, AWS EC2, and WordPress/Elementor.

You can find my portfolio website here:

<https://sunnywebapp.com/>.

Software development is my passion as I am curious by nature and love to tackle tough challenges. I believe my skills, grit, and energy will be a positive contribution to your team.

If you have any questions, please contact me at alex.volsky1@gmail.com or 4168041720.

## EXPERIENCES

### Web Developer

#### InsightHeart Foundation

May 2021 – January 2022

- As a volunteer web developer I was responsible for all aspects of the foundation's web applications.
- Implement custom styling and functionality for WordPress.
- Developed a full-stack prototype of an appointment booking system with PHP and Laravel to enable seniors to schedule rides for their medical appointments.
- WordPress website:<https://insightheartfoundation.com/>
- Appointment Scheduling
- Prototype:<https://sunnycodesapp.com/>

### Associate Product Analyst

#### First Asset

June 2015 - August 2016

- Acted as subject matter expert on all queries regarding First Asset's product lineup, investment methodologies, and the ETFs or mutual funds of competitors.
- Gathered, cleansed, and extracted meaningful insights from large datasets.
